Historical essay

Azael Varas

Be amazed by the culture, technology and conquests of the mythical civilization of the Nile: from predynastic settlements, the pyramids of the Old Kingdom, literature of the Middle Kingdom, and the art of the New Kingdom, up until its final annexation to Rome. Mentuhotep II, Hatshepsut, Akhenaten, Tutankhamun, and Ramesses II. A history of Ancient Egypt that is up-to-date, modern and complete.

Synopsis

Egypt, with its countless wonders has made everybody, whose curiosity has led them into so fantastic paths, fall in love with it for centuries. Their technological achievements, their art, and literature have not lost the original magic, and still manage to convey its powerful effect to the modern man. We, that live in a globalized, saturated with images world, still feel belittled and entranced by the power of the ancient man.

With this book we open a window so that the reader may lean out the window to a distant but known, fantastic, but real world. We will travel through the country of the Nile discovering the when, and the how of the amazing formation of the Egyptian State, the erection of the majestic pyramids, or the creation of a language, and a unique writing... We will accompany extraordinary characters of ancient and recent history; Mentuhotep II, and his conquests, Ramsés II against the peoples of the sea, Cleopatra VII with the power of a singular woman, or Howard Carter in Tutankhamen's Tomb.

Delve into a unique civilization and let yourself be amazed with its history and its secrets...

Biography

Azael Varas is a historian and holds a Master in Archaeology of the Mediterranean in the Classical World.

Expert in Oriental Studies and Egyptology, he has participated in the Carthage Project in Tunisia dedicated to classical iconography, as well as several sites in Cyprus and Alcalá de Henares. He has participated in several academic conferences on Ancient History and Archaeology.

Sales pitch

- *Brief history of the ancient Egypt* explains the origin, expansion and decline of an ancient culture, one of the most fascinating and attractive periods in history. Thanks to this title the reader will learn about technological advances that were the cause for the beginning of writing, the development of Egyptian art, its achievements in architecture, and its expansion, clashes and decline after the reign of Cleopatra.

- This work is an update in the historiography devoted to Egyptian civilization. The author has studied the latest researchs, and studies on ancient Egypt to adapt them to scientific reality making this title in an updated, modern, and comprehensive essay about this civilization.

- This title addresses important issues that have been left behind in the historiography on ancient Egypt, as the important role of women in Egyptian society or the lower classes.

- Text moves away from the density of other informative works about Egypt. With a pleasant, and attractive style this work explains ancient Egypt attractively, for the public who wish to have a deeper, and more complete on this civilization knowledge.

- The author searched original and different sources other than those handled in works so far. The images (more than 60) that accompany the text are shocking, and attract the attention of the reader. The work also includes lessons for the learning of hieroglyphic writing.
